

	ISO 50001-2018 ENERGY MANAGEMENT SYSTEM AND THE ORGANIZATION'S GLOBAL CLIMATE CHANGE POLICY	DOCUMENT NO.	EnYS-PK-1
		REVISION NO.	0
		DATE OF ISSUE	14.10.2024
		REVISION DATE	-

We, as ADEL KALEMCİLİK Tic. ve San. A.Ş., accepting that climate change is a common concern for the universe;

declare that we are a party to IPCC (Intergovernmental Panel on Climate Change), within the frame of the methods and common criteria, assessed by IPCC in terms of human and production-related emissions and removals and adopted by the Conference of Parties as the first meeting of the Parties to the Paris Agreement.

We aim to be one of the first companies to commit to and achieve carbon reduction targets based on efficiency, to achieve net zero emissions in all production processes by 2050, with the implementation of the Paris Agreement at the United Nations Climate Change Conference which was held from October 1 to November 13, 2021, and to calculate and have approved our interim emission reduction target by 2030.

In line with the organization's strategy, and in accordance with our Climate Change Policy and general Environmental Policy, we undertake:

- To reduce our emissions in all production processes as much as possible,
 - To advance the reduction of energy used in production processes,
 - To make widespread the use of renewable energy technologies,
 - To work with suppliers in order to reduce their carbon footprint and to minimize their climate impacts.
 - To determine roadmaps aimed at emission reduction for all our operations and main steps in the value chain,
- To implement CO₂ emission reduction targets as one of the elements of our long-term management incentive plans,
- To work with other partners (industries, academia, NGOs, government, etc.) on climate change mitigation and adaptation.
