Senior Management of ADEL KALEMCİLİK Tic. ve San. A.Ş. created an energy management system policy covering the following issues and announced it to its employees and relevant parties.

With an awareness of the Energy Management System, we, As Adel Kalemcilik, set up a structure, which;

- Is fit for the organization's energy use, consumption and structure,
- Contains a commitment to continuous improvement of energy performance,
- Guarantees the availability of the information and resources necessary to achieve the guarantee targets,
- Contains a commitment to comply with applicable laws and other requirements related to the company's energy use, consumption and efficiency,
- Serves as a framework for establishing energy goals and objectives,
- Supports the purchase of energy-efficient products and services and designs that improve energy performance,

and we undertake to review this structure annually and to revise it when necessary.
