## Adel Kalemcilik

Adel Kalemcilik was founded in 1969 in Kartal, Istanbul. Known for its production quality, Adel is the first brand that comes to mind regarding stationery in Türkiye.

The company strengthened its collaboration with Faber-Castell, the world's oldest writing instruments company. With the power of this partnership, which started in 1995, Adel continues its investments that add value to Türkiye.

In 2015, the company moved to its new production facility in Cayirova and now produces wood-walled pencils, coloring and copy pencils, ballpoint pens, liquid ink pens, markers, felt-tip pens, crayons, watercolors, erasers, pencil sharpeners, finger paints and playdough in that facility built on an area of 36 thousand square meters.

Adel Kalemcilik, excluding paper products, is the largest stationery manufacturer in Türkiye and the surrounding region in terms of both production volume and product variety. The company also exports to more than 30 countries.

Adel Kalemcilik, its long-established history and experience, markets and sells over 3,000 stationery products under the Faber-Castell, Graf von Faber Castell, and Adel brands, both produced locally and imported in Türkiye.

The company, which bases its production philosophy on the motto "We never bring to market any product that we would not allow our own kids to use." conducts nearly 10 thousand product safety tests and 30 thousand product quality tests annually.

Since its establishment, Adel has carried out all its activities within the framework of sustainability principles, aiming to benefit its stakeholders and society. In line with the United Nations 2030 Sustainable Development Goals, Adel focuses on Climate Action and Quality Education, undertaking numerous sponsorships and social responsibility projects.

Adel Kalemcilik operates in partnership with Anadolu Group and Faber-Castell. In 1996, the company went public, and 27.71% of its shares are listed on Borsa Istanbul.
